Discover your natural creativity at Swansea and Gower's special **Beach Sculpture Festival**, now celebrating its **18th** year.

Work with a team of artists to create an open-air display of temporary sculpture made from natural materials, such as sand, shells or pebbles found at the festival beaches. The artworks are inspired by the special beaches and their marine life making the event both educational and fun.

The workshops are FREE FOR EVERYONE – all ages and cultures, adults and children are welcome to join in.
